

# CAPSTONE ASSET PROTECTION SERVICES

## SCALABLE AND CUSTOMIZABLE PROGRAMS

Capstone Fire & Safety Management offers a customized wildfire prevention and response program for both personal and commercial lines of property casualty insurance. Our program is scalable and can adjust depending on property volume, geography, dispatch criteria and Total Insured Value.

Our number one priority is to save lives and properties with a focus on exceptional communication to all stakeholders. We operate in full compliance with local, state and federal regulations, as well as the agency having jurisdiction, when responding to an incident.

## CAPSTONE ASSET PROTECTION PROGRAM ELEMENTS

There are five distinct elements of the Capstone Asset Protection Program (CAPS):

- Wildfire engine crew readiness
- Wildfire activity and threat monitoring, through partnership
- Wildfire prevention and mitigation activities
- Incident response
- Closed loop communication and reporting

## AREAS SERVED

We are currently providing services in California, Arizona, Oregon, Washington, Utah, Nevada and Colorado, and we are continually expanding our service areas.

For more information on these services, please contact our **Business Development team** at **877.347.3312, Opt 1** or **businessdevelopment.capstone@gmr.net**.
